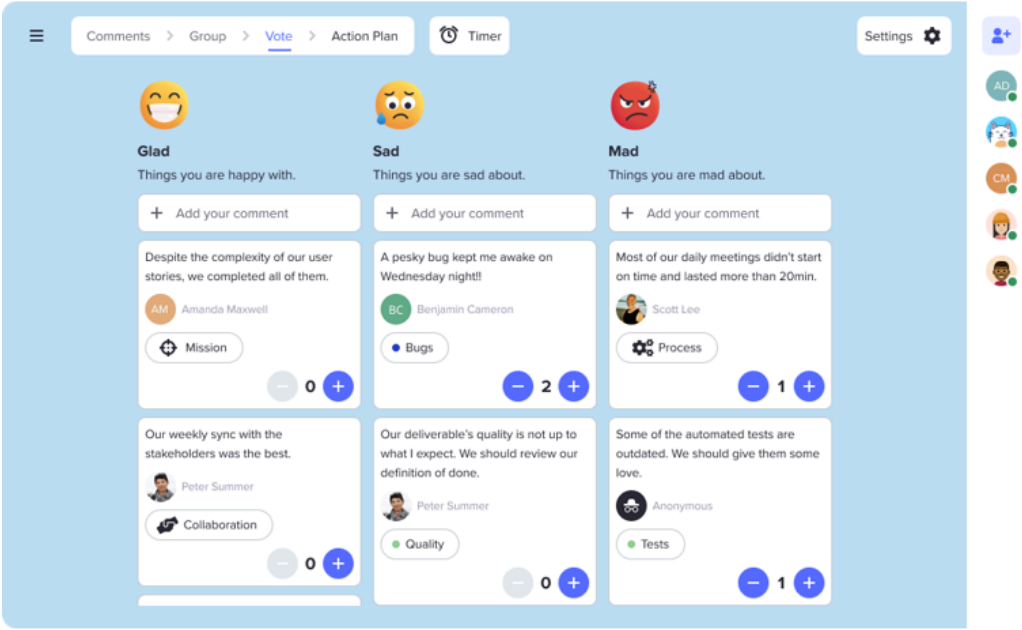
Sprint-3 Retro



Mad (Frustrations or Annoyances):

1. **Unplanned Work:** Several high-priority bugs from the previous sprint disrupted the team's workflow.
2. **Scope Changes:** Last-minute changes to user stories caused delays and rework.
3. **Meeting Overload:** Too many meetings left little time for focused work.

Sad (Disappointments or Concerns):

1. **Missed Opportunities:** The team couldn't address technical debt due to tight deadlines.
2. **Lack of Collaboration:** Some team members felt siloed and disconnected during the sprint.
3. **Incomplete Documentation:** Missing documentation caused confusion during handoffs.

Glad (Positives or Successes):

1. **Sprint Goal Achieved:** The team delivered all committed stories and met the sprint goal.
2. **Improved Communication:** Daily standups were effective, and blockers were resolved quickly.
3. **Positive Stakeholder Feedback:** The Product Owner praised the team for the latest feature release.

Action Items:

Addressing "Mad" Items:

1. **Reduce Unplanned Work:**
   - Action: Allocate time in the next sprint to address known technical debt and bug fixes.
   - Owner: Development Team
   - Timeline: Next sprint.
2. **Prevent Scope Changes:**
   - Action: Implement a formal change request process for last-minute scope changes.
   - Owner: Product Owner
   - Timeline: Next sprint planning.
3. **Optimize Meetings:**
   - Action: Review the meeting schedule and cancel or shorten non-essential meetings.
   - Owner: Scrum Master
   - Timeline: Before the next sprint.

Addressing "Sad" Items:

1. **Tackle Technical Debt:**
   - Action: Dedicate 10% of the next sprint to addressing technical debt.
   - Owner: Development Team
   - Timeline: Next sprint.
2. **Improve Collaboration:**
   - Action: Schedule a team-building activity and encourage more pair programming.
   - Owner: Scrum Master
   - Timeline: Mid-sprint.
3. **Enhance Documentation:**
   - Action: Create a checklist for required documentation before closing tasks.
   - Owner: Tech Lead
   - Timeline: By the end of the next sprint.

Celebrating "Glad" Items:

1. **Acknowledge Success:**
   - Action: Recognize the team's achievement of the sprint goal in the next team meeting.
   - Owner: Scrum Master
   - Timeline: Next team meeting.
2. **Share Positive Feedback:**

- Action: Share stakeholder feedback with the team to boost morale.
- Owner: Product Owner
- Timeline: Next team meeting.

Key Takeaways:

- The **Mad, Sad, Glad** format helps the team express emotions and identify areas for improvement.
- Action items are specific, measurable, and assigned to owners to ensure accountability.
- Celebrating successes boosts team morale and reinforces positive behaviors.
